

International Society for Soil Mechanics and Geotechnical Engineering
Société Internationale de Mécanique des Sols et de la Géotechnique

Michael Hicks

Professor
Faculty of Civil Engineering and Geosciences
Delft University of Technology
2628 CN Delft, Netherlands
Tel: +31 15 2787433
Email: m.a.hicks@tudelft.nl

Interests related to TC304:

- Stochastic characterization and modelling of soil spatial variability
- Reliability analysis in geotechnical engineering
- Slope stability
- Random finite element method
- Random material point method
