

International Society for Soil Mechanics and Geotechnical Engineering
Société Internationale de Mécanique des Sols et de la Géotechnique

Richard J. Bathurst

Professor
GeoEngineering Centre at Queen's-RMC
Department of Civil Engineering
Royal Military College of Canada
Kingston, Ontario, Canada
Tel: +1 613 541 6000 ext 6479
Fax: +1 613 541 6218
Cell: +1 613 539 4342
Email: bathurst-r@rmc.ca

Interests related to TC304:

- Reliability analysis of soil reinforced structures
- Model development and calibration for reinforced soil systems
- Geosynthetic, soil nail and steel reinforced walls and slopes
- Performance-based geotechnical design
- LRFD calibration and code development for reinforced soil system limit states
- Bayesian analysis
